Remote Access - Upload

This chapter covers the following topics:

- Description

- Procedure

- Batch Example

Description

Program

B74050

Function

Upload all local remote accesses pending for authorization to the central directory's authorization tables.

When you add, modify or delete remote access for a cabinet, user or member, the changes are not updated in the central directory until this utility is run.

Online Input Screen

```
  5:47 PM                * * *  C O N - N E C T  3  * * *              14.Feb.94

            Menu   Quit
  Complete the information above and press ENTER to continue
```

Utility Parameters

Parameter	Format	Description
Start Upload	A1	

Procedure

When this utility is run, the following steps are performed:

Processing Sequence

1. **Upload users pending for authorization**
   All users with status pending for authorization will be added to the central directory's authorization tables.

2. **Upload users pending for deletion**
   All users with status pending for deletion will be deleted from the central directory's authorization tables.

3. **Upload users pending to be updated**
   Any modifications made to an authorized user's name will be uploaded to the central directory's authorization tables.

4. **Verify authorized users**
   All users previously uploaded to the central directory's authorization tables will be verified against the Con-nect system file. If a user no longer exists in Con-nect, authorization for that user will be deleted and removed from the authorization tables.

5. **Upload cabinets pending for authorization**
   All cabinets with status pending for authorization will be added to the central directory's authorization tables.

6. **Upload cabinets pending for deletion**
   All cabinets with status pending for deletion will be deleted from the central directory's authorization tables.

7. **Verify authorized cabinets**
   All cabinets previously uploaded to the central directory's authorization tables will be verified against the Con-nect system file. If a cabinet no longer exists in Con-nect, authorization for that cabinet will be deleted and removed from the authorization tables.

8. **Upload members pending for authorization**
   All members with status pending for authorization will be added to the central directory's authorization tables.

9. **Upload members pending for deletion**
   All members with status pending for deletion will be deleted from the central directory's authorization tables.

10. **Verify authorized members**
    All members previously uploaded to the central directory's authorization tables will be verified against the Con-nect system file. If a member no longer exists in Con-nect, authorization for that cabinet will be deleted and removed from the authorization tables.

11. **Download members pending for deletion**
    All external memberships whose authorization has been deleted will be deleted from Con-nect.

Batch Example

Upload all cabinets pending for authorization or deletion to the central directory's authorization tables.
This would be coded as follows:

```
LOGON SYSCNT2B
MENU
B74050 X
FIN
```
